

TROYBEDINGFIELD

Developer & UX/UI

Passionate Front-End Developer and UX/UI Designer who utilizes both disciplines to create the best products for the end user.

With over 13 years experience , I:

- Possess a proven ability to creatively meet development, UX, UI, and functionality requirements
- Establish Development and Design System best practices and implement them throughout the organization
- Prioritize and direct work among the development team to achieve milestones and launch products
- Work with senior-level stakeholders to create high-quality digital solutions
- Facilitate Figma sessions with the UX and creative teams to create, test, and refine solutions resulting in highly functional prototypes

EMPLOYMENT HISTORY

Proliant, UX/UI Developer | 2020-2024

- Built a new menu system and updated controls, components, and pages to be fluid/responsive throughout the system
- Updated and replaced old UI libraries, removed old dependencies, and cleaned up and removed old style sheets and patterns
- Setup our entire design system in Figma, built out assets to match what was built prior in code, and added code snippets with matching properties in Figma for our component library
- Created an internal style guide site with code snippets and working examples for the development team

Freelance, Developer | 2019-present

Meacham Controls Systems, Developer | 2019-2020

- Created user portals and dashboards for Controls systems

Scout, Senior Developer | 2014 - 2019

- Introduced a modern development workflow which resulted in tighter collaboration across the UX, creative, and development departments
- Recommended and managed hosting resulting in more efficient workflows and implementation for HIPAA and non HIPAA digital projects
- Managed multiple FTEs and off-site contract resources including third party developers and hosting services, data services, and Database Architects

Blue Sky Agency, Developer & Designer | 2012 - 2014

- Developed and managed multiple client websites

Castalia Communications Corp., Developer & Designer | 2010 - 2012

- Developed and managed multiple client websites
